MARKED-UP AMENDED CLAIMS 3-9

3. (Amended) Protective hood according to [one of the preceding claims] claim 1, further characterized in that the support material is a filament nonwoven material, whereby the nonwoven material is bonded by means of a thermal bonding.

4. (Amended) Protective hood according to [one of the preceding claims] claim 1, further characterized in that the basis weight of the support material amounts to between 12 and 200 g/cm², preferably between 50 and 90 g/cm².

5. (Amended) Protective hood according to [one of the preceding claims] claim 1, further characterized in that the coating weight of the coating material lies between 10 and 150 g/cm², preferably between 20 and 40 g/cm².

6. (Amended) Protective hood according to [one of the preceding claims] claim 1, further characterized in that the support material and/or the coating material are colored.

7. (Amended) Protective hood according to [one of the preceding claims] claim 1, further characterized in that the support material and/or the coating material contain additives, particularly a UV stabilizer or a flame-protection agent.

8. (Amended) Protective hood according to [one of the preceding claims] claim 1, further characterized in that the coating material is free of plasticizers and solvents.

9. (Amended) Protective hood according to any one of the preceding claims, namely a protective hood for automobiles or automobile parts.
